

RIBA Accredited CPD Seminars from Triton Systems

Triton is a member of the RIBA CPD Providers Network and offers architects and other construction professionals six RIBA approved seminars.

1. New Build and Existing Basement Waterproofing

This seminar aims to provide a greater awareness of BS 8102 2009, the Code of Practice for Protection of Below Ground Structures and covers the types of waterproofing systems available and relevant standards and regulations.

Watertight Concrete Basement in Construction

2. New Build Basement Waterproofing

This seminar focuses on the specific requirements of waterproofing in new build applications. Focusing on the requirements of BS 8102 (2009) it covers design philosophy and guidance on the site evaluation/ risk assessment required at the outset of the project, and gives clear explanations of the types of waterproofing protection available.

New Build Basement Waterproofing

3. Existing Basement Waterproofing

This seminar will appeal to architects involved in domestic, commercial and historic or conservation projects. It explains the key benefits of using cavity drain membranes and how they differ from tanking systems.

Existing Basement Waterproofing

4. Waterproofing Concrete Structures Below Ground

This seminar looks at the use of concrete in the construction industry and the systems available for waterproofing concrete as defined in BS8102 (2009). The seminar covers what concrete is, where it can be used and the benefits of using it.

Waterproofing Concrete Structures Below Ground

5. Type B Waterproofing

This seminar looks at structurally integral Type B waterproofing as defined in BS 8102. It covers design philosophy, site evaluation and risk assessment plus the systems offering Type B protection such as in depth crystalline concrete waterproofing admixtures and pre-formed waterstops.

Type B Waterproofing

continued...

6. Living Roofs/Green Roofs

This seminar focuses on the installation of living or green roofs to structures and explores their benefits, the design principles, construction processes and further considerations.

Living Roofs/Green Roofs

If you would like to book one of Triton's RIBA approved CPD seminars, please fill out your details on the form below, save the completed form and return it to us at info@tritonsystems.co.uk, and we will contact you to make an appointment. Each seminar lasts for 40 minutes and can be presented at practices throughout the UK and Ireland.

Which Triton CPD seminar are you interested in?

- New Build and Existing Basement Waterproofing
- New Build Basement Waterproofing
- Structural Waterproofing (existing basements)
- Waterproofing Concrete Structures Below Ground
- Type B Waterproofing
- Living Roofs/Green Roofs

Other requirement:

If we are to present a seminar at your premises, please indicate your facilities below:

- Conference room
- A projector screen
- Beam projector
- The ability to darken the room

Please tick to indicate your specific requirements below:

- Triton to present a seminar at your practice premises
Please indicate estimated size of audience:
 - To attend a seminar in the region
 - Set of Triton product literature
 - A Triton representative to call you to discuss a project
